

## **React Native Developer Intern – The Special School**

### **About Us:**

The Special School is creating a super accessible educational app for specially-abled learners, ranging from primary education to higher studies and competitive exams. Our mission is to make learning inclusive, engaging, and barrier-free.

### **Role Overview:**

We are looking for a **React Native Developer Intern** to build and optimize mobile application features that ensure a smooth and accessible user experience for all learners.

### **Responsibilities:**

- Develop cross-platform mobile applications using React Native.
- Implement accessible design principles (voice-over, large text, screen reader compatibility, etc.).
- Collaborate with designers and backend developers to deliver new features.
- Debug, test, and improve performance of the app.
- Ensure seamless UI/UX with accessibility as a core principle.

### **Requirements:**

- Strong knowledge of JavaScript/TypeScript and React Native.
- Familiarity with REST APIs, Firebase, or backend integration.
- Understanding of mobile accessibility standards is a plus.
- Problem-solving attitude and eagerness to learn.

### **Perks & Benefits:**

- Stipend on the basis of the interview.
- Opportunity to work on India's first edtech platform for specially-abled students.
- Hands-on experience in mobile app development for impact.
- Certificate of Internship & Letter of Recommendation (based on performance).
- Flexible working environment.
